May 11, 2020

Fellow Citizens,

We are just a few days away from reaching the “60-Day” mark of the Stay at Home Order that was issued in California. In this time, our citizens have been asked to stay at home unless it is to travel for essential activities such as work, grocery shopping, or medical visits. I think we can all agree that this has been a trying time for everyone.

Despite all that is going on, we want you to know that we continue to provide the same services that we always have. Whether you need an Air Conditioning Repair, have a Plumbing issue, or need an electrician – we are always ready to come to your rescue. We are proud of our community for staying strong, and we are proud of the companies and people that have stepped up amid the coronavirus crisis.

We continue to provide delivery services for the elderly or those in need, we continue to service and repair your homes critical mechanical and electrical equipment, and we continue to treat every client as if they are our “A1” client! No matter the day or time, rest assured that we always do what it takes to keep you and your loved ones comfortable during these difficult times.

Every technician is aware of the CDC recommendations, and we are putting forth our absolute best effort to ensure you and your home are safe. While we originally limited our team to “emergency calls”, it is now critical that we restart all maintenance services immediately to ensure that your comfort equipment is running and operational through the summer season.

Should you have any questions regarding our services, please contact us at: 760-206-8151 or via email at: info@a1serviceheroes.com

Sincerely,

Greg Granger
